About QUALIFI

QUALIFI is recognised and regulated by Ofqual (Office of Qualifications and Examinations Regulator). Our Ofqual reference number is RN5160. Ofqual regulates qualifications, examinations, and assessments in England.

As an Ofqual recognised Awarding Organisation, QUALIFI is required to carry out external quality assurance to ensure that centres approved for the delivery and assessment of QUALIFI's qualifications meet the required standards.

Why Choose QUALIFI Qualifications?

QUALIFI qualifications aim to support learners to develop the necessary knowledge, skills and understanding to support their professional development within their chosen career and or to provide opportunities for progression to further study.

Our qualifications provide opportunities for learners to:

- apply analytical and evaluative thinking skills
- develop and encourage problem solving and creativity to tackle problems and challenges
- exercise judgement and take responsibility for decisions and actions
- develop the ability to recognise and reflect on personal learning and improve their personal, social, and other transferable skills.

Employer Support for the Qualification Development

During the development of this qualification QUALIFI consults with a range of employers, providers, and existing centres (where applicable) to ensure rigour, validity and demand for the qualification and to ensure that the development considers the potential learner audience for the qualification and assessment methods.

Equality and Diversity

QUALIFI's qualifications are developed to be accessible to all learners who are capable of attaining the required standard. QUALIFI promotes equality and diversity across aspects of the qualification process and centres are required to implement the same standards of equal opportunities and ensure teaching and learning are free from any barriers that may restrict access and progression.

Learners with any specific learning need should discuss this in the first instance with their approved centre who will refer to QUALIFI's Reasonable Adjustment and Special Consideration Policy.

Qualification Title and Accreditation Number

This qualification has been accredited to the Regulated Qualification Framework (RQF) and has its own unique Qualification Accreditation Number (QAN). This number will appear on the learner's final certification document. Each unit within the qualification has its own RQF code. The QAN for this qualification is as follows:

QUALIFI Level 7 Diploma in Business Strategy (603/5745/9)

Qualification Aims and Learning Outcomes

Aims for QUALIFI Level 7 Diploma in Business Strategy

The Level 7 programme will require learners to critically evaluate, challenge and synthesise a wide range of current management tools, techniques and models. The emphasis placed on current management concepts and models is on those that are relevant to the 21st century business environment.

At level 7 the emphasis is placed on the ability to adapt management concepts, tools and techniques to align with organisational culture and apply critical reflective thinking. The qualification scope covers all the primary business functions and how these are interrelated and integrated. The units provide a holistic study of core organisational management issues that are relevant to strategic decisions making, planning and enabling the organisation to achieve its strategic aims and objectives.

The qualification will enable learners to become independent, self-directed learners with tools and motivation to continue learning, developing and reflecting on practice throughout their careers.

Level 7 qualifications are designed to develop the knowledge, understanding and skills learners require to deal with the complexities of management in a business context, and to develop their ability to lead change in organisations.

The Qualifi Level 7 Diploma in Business Strategy aims to give learners the opportunity to:

1. Gain a recognised qualification from an internationally recognised awarding organisation.
2. Learn from a curriculum supported by the most recent content relevant to a contemporary business environment.
3. Develop new skills and knowledge that can be immediately applied.
4. Prepare for higher-level positions in management through personal and professional development as a leader who thrives in complex and globally diverse environments.
5. Have assessments marked and moderated by respected professionals with practical experience across a number of business sectors and management fields.
6. Be supported by a digital online platform and develop a personalised e-portfolio to improve the transparency and portability of the qualification.
7. Progress along a pathway to gain a higher-level qualification.

Learning Outcomes of the QUALIFI Level 7 Diploma in Business Strategy

The overall learning outcomes of the qualification are for learners to:

- To understand and apply the principles of strategic leadership in a business environment.
- Review and apply the principles of business management within industry.
- To understand and apply the principles of strategic management in a specific environment.
- To improve the employability of learners by allowing them to explore the relationship between management theories and their practical application in the business world.
- Analyse problem solving techniques specific to business and industry
- Select, collate, review and analyse information from a wide range of sources.
- Manage one's own personal development and growth.

The learning outcomes and assessment criteria for each unit are outlined in the unit specifications.

Delivering the Qualification

External Quality Assurance Arrangements

All centres are required to complete an approval process to be recognised as an approved centre. Centres must have the ability to support learners. Centres must commit to working with QUALIFI and its team of External Quality Assurers (EQAs). Approved Centres are required to have in place qualified and experienced tutors, all tutors are required to undertake regular continued professional development (CPD).

Approved centres will be monitored by QUALIFI External Quality Assurers (EQAs) to ensure compliance with QUALIFI requirements and to ensure that learners are provided with appropriate learning opportunities, guidance, and formative assessment.

QUALIFI's guidance relating to invigilation, preventing plagiarism and collusion will apply to centres.

QUALIFI, unless otherwise agreed:

- sets all assessments;
- moderates assessments prior to certification;
- awards the final mark and issues certificates.

Learner Induction and Registration

Approved Centres should ensure all learners receive a full induction to their study programme and the requirements of the qualification and its assessment.

All learners should expect to be issued with the course handbook and a timetable and meet with their personal tutor and fellow learners. Centres should assess learners carefully to ensure that they are able to meet the requirements of the qualification and that, if applicable, appropriate pathways or optional units are selected to meet the learner's progression requirements.

Centres should check the qualification structures and unit combinations carefully when advising learners. Centres will need to ensure that learners have access to a full range of information, advice and guidance to support them in making the necessary qualification and unit choices. During recruitment, approved centres need to provide learners with accurate information on the title and focus of the qualification for which they are studying.

All learners must be registered with QUALIFI within the deadlines outlined in the QUALIFI Registration, Results and Certification Policy and Procedure.

Entry Criteria

Approved Centres are responsible for reviewing and making decisions as to the applicant's ability to complete the learning programme successfully and meet the demands of the qualification. The initial assessment by the centre will need to consider the support that is readily available or can be made available to meet individual learner needs as appropriate.

The qualification has been designed to be accessible without artificial barriers that restrict access. For this qualification, applicants must be aged 19 years or over.

Learners are expected to hold the following:

- Level 6 qualification or:
- First Degree.

In the case of applicants whose first language is not English, then IELTS 6 (or equivalent) is required. International qualifications will be checked for appropriate enrolment to UK higher education postgraduate programmes where applicable. The applicants are normally required to produce two supporting references, at least one of which should preferably be academic.

In certain circumstances, applicants with considerable experience but no formal qualifications may be considered, subject to interview and being able to demonstrate their ability to cope with the demands of the qualification.

Recognition of Prior Learning

Recognition of Prior Learning (RPL) is a method of assessment (leading to the award of credit) that considers whether learners can demonstrate that they can meet the assessment requirements for a unit through knowledge, understanding or skills they already possess and so do not need to develop through a course of learning.

QUALIFI encourages centres to recognise learners' previous achievements and experiences whether at work, home or at leisure, as well as in the classroom. RPL provides a route for the recognition of the achievements resulting from continuous learning. RPL enables recognition of achievement from a range of activities using any valid assessment methodology. Provided that the assessment requirements of a given unit or qualification have been met, the use of RPL is acceptable for accrediting a unit, units, or a whole qualification.

Evidence of learning must be valid and reliable. For full guidance on RPL please refer to QUALIFI's *Recognition of Prior Learning Policy*.

Data Protection

All personal information obtained from learners and other sources in connection with studies will be held securely and will be used during the course and after they leave the course for a variety of purposes and may be made available to our regulators. These should be all explained during the enrolment process at the commencement of learner studies. If learners or centres would like a more detailed explanation of the partner and QUALIFI policies on the use and disclosure of personal information, please contact QUALIFI via email support@QUALIFI-international.com

Learner Voice

Learners can play an important part in improving the quality through the feedback they give. In addition to the on-going discussion with the course team throughout the year, centres will have a range of mechanisms for learners to feed back about their experience of teaching and learning.

Professional Development and Training for Centres

QUALIFI supports its approved centres with training related to our qualifications. This support is available through a choice of training options offered through publications or through customised training at your centre.

The support we offer focuses on a range of issues including:

- planning for the delivery of a new programme
- planning for assessment and grading
- developing effective assignments
- building your team and teamwork skills
- developing learner-centred learning and teaching approaches
- building in effective and efficient quality assurance systems.

Please contact us for further information.

Progression and Links to other QUALIFI Programmes

Completing the **QUALIFI Level 7 Diploma in Business Strategy** will enable learners to progress to:

- QUALIFI Level 8 Diploma in Strategic Management and Leadership.
- University to complete a Master's Degree.
- Employment in an associated profession.

Qualification Structure and Requirements

Credits and Total Qualification Time (TQT)

The QUALIFI Level 7 Diploma in Business Strategy is made up of 120 credits which equates to 1200 hours of TQT.

Total Qualification Time (TQT) is an estimate of the total amount of time that could reasonably be expected to be required for a learner to achieve and demonstrate the achievement of the level of attainment necessary for the award of a qualification.

Examples of activities that can contribute to Total Qualification Time includes: guided learning, independent and unsupervised research/learning, unsupervised compilation of a portfolio of work experience, unsupervised e-learning, unsupervised e-assessment, unsupervised coursework, watching a prerecorded podcast or webinar, unsupervised work-based learning.

Guided Learning Hours (GLH) are defined as the time when a tutor is present to give specific guidance towards the learning aim being studied on a programme. This definition includes lectures, tutorials and supervised study in, for example, open learning centres and learning workshops, live webinars, telephone tutorials or other forms of e-learning supervised by a tutor in real time. Guided learning includes any supervised assessment activity; this includes invigilated examination and observed assessment and observed work-based practice.

Rules of Combination

Learners must complete any number of units to achieve a minimum of 120 credits.

Unit Reference	Mandatory Units	Level	TQT	Credit	GLH
M/506/9074	Strategic Marketing	7	150	15	60
D/506/9071	Finance for Managers	7	150	15	60
D/506/9068	Strategic Direction	7	150	15	60
Y/506/9070	Strategic Planning	7	150	15	60
H/618/0795	Creative and Innovative Management	7	150	15	60

Y/506/9133	Research Methods	7	200	20	80
J/506/9064	Development as a Strategic Manager	7	150	15	60
K/615/3307	Resourcing, Talent Management and Development	7	150	15	60
M/615/3308	Performance Management	7	100	10	40

R/618/8634	Business Finance	7	100	10	40
Y/618/8635	International Financial Management	7	100	15	40
Y/615/3304	Contemporary HRM	7	100	10	40
D/618/8636	Customer Growth marketing	7	100	10	40
H/618/8637	Advanced Strategic Marketing	7	150	15	60
K/618/8638	Planning, Controlling and Leading a Project	7	150	15	60
M/618/8639	Procurement Risk and Contract Management	7	100	10	40
H/618/8640	Advanced Project and Logistics Management	7	100	10	40

Achievement Requirements

Learners must demonstrate they have met all learning outcomes and assessment criteria for all the required units to achieve this qualification. QUALIFI will issue certificates to all successful learners via their registered centres.

Awarding Classification/Grading

All unit grading is shown on the qualification transcript.

Fail - 0-39%

Pass - 40%-59%

Merit - 60% - 69%

Distinction 70%+

All units will be internally assessed through written assignment, internally marked by the QUALIFI approved centre and subject to external quality assurance by QUALIFI.

Assessment Strategy and Guidance

QUALIFI will provide [enter assessment method e.g., written assessment tasks] for each unit of this qualification. These tasks will address all learning outcomes and related assessment criteria, all of which must be demonstrated/passed in order to achieve the qualification.

The tasks will enable learners to draw on work-related information and/or examples wherever possible. Some assessment tasks will contain a practical assignment which will require observation by an assessor, see Assessment Guidance for further information.

The assessment tasks will require learners to draw on real organisational information or case studies to illustrate their answers. To support this activity during the programme of learning, centres are required to make sure that they include case studies of relevant organisations and, wherever possible, encourage learners to draw on work-place opportunities to undertake research and investigation to support their learning.

QUALIFI provide a Candidate Workbook for each unit that learners should use to record their answers and/or cross-reference any supporting evidence relating to a practical task. Approved centres should request a copy of the assessment workbook.

Learner assessments will be internally marked by the approved centre and will be subject to external moderation by QUALIFI prior to certification.

all learning outcomes and related assessment criteria, all of which must be demonstrated/passed to achieve the qualification. To achieve a 'pass' for each of the units, learners must provide evidence to demonstrate that they have fulfilled all the learning outcomes and meet the standards specified by all assessment criteria.

The assessment tasks will require learners to draw on real organisational information or case studies to illustrate their answers. To support this activity during the programme of learning, centres are required to make sure that they include case studies of relevant organisations and, wherever possible, encourage learners to draw on work-place opportunities to undertake research and investigation to support their learning.

Learner assessments will be internally marked by the approved centre and will be subject to external moderation by QUALIFI prior to certification.

Qualifi will provide a combination of assessment that cover the learning outcomes and assessment criteria. These may be:

1: Formative Assessment

Formative assessment is an integral part of the assessment process, involving both the Tutor/Assessor and the learner about their progress during the course of study. Formative assessment takes place prior to summative assessment and focuses on helping the learner to reflect on their learning and improve their performance and does not confirm achievement of grades at this stage.

The main function of formative assessment is to provide feedback to enable the learner to make improvements to their work. This feedback should be prompt so it has meaning and context for the learner and time must be given following the feedback for actions to be complete. Feedback on formative assessment must be constructive and provide clear guidance and actions for improvement.

All records should be available for auditing purposes, as we may choose to check records of formative assessment as part of our ongoing quality assurance. Formative assessments will not contribute to the overall mark of the units.

2: Summative Assessment

Summative assessment is used to evaluate learner competence and progression at the end of a unit or component. Summative assessment should take place when the assessor deems that the learner is at a stage where competence can be demonstrated.

Learners should be made aware that summative assessment outcomes are subject to confirmation by the Internal Verifier and External Quality Assurer (EQA) and thus is provisional and can be overridden. Assessors should annotate on the learner work where the evidence supports their decisions against the assessment criteria. Learners will need to be familiar with the assessment and grading criteria so that they can understand the quality of what is required.

Formative Assessment	Summative Assessment
used during the learning process	used at the end of the learning process
provides feedback on learning-in-process	evaluates achievement against learning outcomes and assessment criteria
dialogue-based, ungraded	graded Pass / Refer

Evidence of both formative and summative assessment MUST be made available at the time of external quality assurance – EQA.

Unit Specifications

Unit 701: Research Methods

Unit code: Y/506/9133

RQF level: 7

Aim

The aim of the unit is to develop the learner’s knowledge and understanding of academic practice and approaches to research. It utilises a problem-based learning approach to develop your practical competence in aspects appropriate to academic practice and research in business and management.

The unit aims to allow learners to:

- develop the ability to conduct research into business and management issues that require familiarity with a range of business data, research sources and appropriate methodologies;
- combine theoretical and practical programme elements and personal development by building the academic skills and qualities within a holistic approach;
- gain confidence and competence in the academic skills required to study successfully at the master’s level and beyond;
- develop the principles and practice of quantitative and qualitative research with a practical view of the whole process from idea to required output;
- define research and development questions;
- find, select and review literature;
- analyse data, interpret data and evidence.
-

Learning Outcomes and Assessment Criteria

Learning Outcomes: To achieve this unit a learner must:	Assessment Criteria: Assessment of these outcomes demonstrates the learner can:
1. Be able to understand and apply different research methods that can provide realistic and applicable outcomes.	1.1 Critically apply the principles and practices of quantitative and qualitative research on a practical level.
	1.2 Define research and development questions and prioritise them in relation to contemporary managerial and business needs.
2. Be able to use standard research methodologies.	2.1 Produce critical literature reviews based upon research methodology.

	2.2 Use methodology, instrumentation and research design appropriate to the specific nature of fieldwork.
	2.3 Critically apply statistical methods.
3. Be able to produce research reports.	3.1 Plan and deliver management research projects using research methodologies.
	3.2 Provide written research reports that include data visualisation.
	3.3 Address ethical issues in research.

Indicative Content

In this unit learners will study a number of models, concepts and ideas which can be used to help manage team performance.

These will include:

- Systems of interest
- Boundary critiques
- Multiple perspectives
- Emergent properties
- Reference systems
- Context is everything
- Diagnosis and analysis
- Your research focus – some questions
- Your research strategy
- The nature of data and information
- Taxonomy, ontology and epistemology
- Mode 1 and 2 knowledge
- Tacit and explicit knowledge
- Methods and techniques for collecting data and information
- Criteria for selecting data and information/Sources of data and information
- Different types of research

Unit 702: Development as a Strategic Manager

Unit code: J/506/9064

RQF level: 7

Aim

The unit aims to support organisational and self-awareness in learners. It provides a foundation for a self-critical and reflective approach to personal development to support the learner when operating at a strategic level. Wider context organisational and environmental factors are also considered as contributors to overall strategic success of the individual and the organisation.

Learning Outcomes and Assessment Criteria

Learning Outcomes To achieve this unit a learner must:	Assessment Criteria Assessment of these outcomes demonstrates the learner can:
1. Be able to identify personal skills to achieve strategic ambitions.	1.1 Critically analyse the strategic direction of the organisation.
	1.2 Critically evaluate the strategic skills required of the leader operating in a complex environment to achieve personal and organisational strategic ambitions.
	1.3 Assess the relationship between existing, required and future skills to achieve strategic ambitions.
2. Be able to manage personal leadership development to support achievement of strategic ambitions.	2.1 Critically discuss the opportunities to support leadership development.
	2.2 Design a personal development plan to direct leadership development in a complex environment.
	2.3 Devise an implementation process to underpin the success of the development plan that can realise substantial changes in leadership style.
3. Be able to evaluate the effectiveness of the leadership development plan.	3.1 Critically evaluate the achievement of outcomes of the plan against original objectives.
	3.2 Evaluate the impact of leadership style and the achievement of objectives on strategic ambitions in different organisational settings.

	3.3 Critically review and update the leadership development plan
4. Be able to advocate an employee welfare environment that supports organisational values.	4.1 Critically evaluate the impact of corporate commitment to employee welfare on strategic organisational objectives.
	4.2 Discuss how an employee welfare environment can affect achievement of strategic organisational objectives.
	4.3 Determine the influence of corporate commitment to employee welfare on the development of organisational values that will realise strategic ambitions.

Indicative Content

The indicative content for learners includes, but is not limited to, the following:

- Approaches to business strategy
- Old and new business models
- Strategy evolution
- Resource based approach to strategy
- Analysis of the environment
- Honey and Mumford learning styles
- Personal development and gap analysis including developing yourself
- Career anchors (Edgar Schein)
- Blanchard, Adair, Blake and Mouton Models on leadership and development
- Argyris' double loop learning
- Reddin's 3D and Belbin's team roles
- Skills competences and know-hows including core and distinctive competences
- Intellectual capital and balance score card methods
- Development of a personal development plan (PDP)
- Health and safety at work
- Erikson's Life Stage Theory
- Nudge Theory
- Psychological Contract
- Kirkpatrick's Learning Evaluation Model
- Erikson's Theory of Personal Development (1902 – 1994)
- Developmental and Sponsorship Mentoring
- Formal and Informal Coaching.

Learners will further be introduced to, and encouraged to discuss, some of the management models, concepts and ideas that could be used to help them set departmental, project, team and their own objectives.

Unit 703: Strategic Marketing

Unit code: M/506/9074

RQF level: 7

Aim

The unit will investigate underlying models, techniques and theories that underpin marketing and can contribute to strategic objectives. It will also provide learners with a critical understanding of the marketing function within complex organisations.

Learning Outcomes and Assessment Criteria

Learning Outcomes To achieve this unit a learner must:	Assessment Criteria Assessment of these outcomes demonstrates the learner can:
1. Be able to understand the relationship between the marketing plan and strategic objectives.	1.1 Critically evaluate how marketing techniques and tools can support the strategy of an organisation and how these impacts on the marketing plan.
	1.2 Determine marketing methodologies and approaches that contribute to a marketing plan within complex organisations.
	1.3 Address risk associated with the marketing plan
2. Be able to produce a strategic marketing plan.	2.1 Critically analyse the components of a marketing plan and the levels of importance of each component to the achievement of strategic objectives.
	2.2 Address mitigation strategies for high risk components of the plan.
	2.3 Develop a marketing plan that will achieve strategic objectives for a complex organisation.
3. Be able to promote the marketing plan in support of strategic objectives.	3.1 Discuss how the plan supports strategic objectives.
	3.2 Develop an approach to gain agreement for the marketing plan that will change organisation actions and methods to achieve strategic objectives.

	3.3 Critically evaluate and provide review measures for the agreed plan.

Indicative Content

- Marketing mix and principles of marketing
- Marketing research
- International marketing planning
- Methods and Techniques for collecting Data and Information
- Basic / Traditional Approaches to Strategy
- Marketing methodologies
- Diffusion of Innovation, Product life cycle and experience curve
- Issues of risk within a marketing plan
- Components of a Strategic Marketing Plan
- Brand & Advertising including Global Brands
- Advertising to Children
- The Regulatory Frameworks
- Use Product/Service Branding
- Behaviours and Attitudes/Behavioural Measures of Loyalty
- Customer Service
- Digital and Global marketing
- Globalization theories and cases in practice.
- Advertising to Children
- The Regulatory Frameworks

Learners will further be introduced to, and encouraged to discuss, some of the management models, concepts and ideas that could be used to help them set departmental, project, team and their own objectives.

Unit 704: Finance for Managers

Unit code: D/506/9071

RQF level: 7

Aim

This unit is geared towards supporting learners in understanding and using financial information and data. This unit is important to learners as it supports decision making.

Learning Outcomes and Assessment Criteria

Learning Outcomes To achieve this unit a learner must:	Assessment Criteria Assessment of these outcomes demonstrates the learner can:
1. Be able to analyse financial information and data.	1.1 Determine what financial information is needed and assess its validity.
	1.2 Analyse different financial documents and information and formulate conclusions about financial performance levels and needs of stakeholders.
	1.3 Conduct comparative analysis of financial information and data.
	1.4 Critically review and question financial information and data.
2. Be able to assess budgets and their ability to support organisational objectives.	2.1 Identify how a budget can be produced taking into account financial constraints and achievement of targets and accounting conventions.
	2.2 Be able to assess a budget.
	2.1 Identify how a budget for a complex organization can support organizational objectives and targets whilst taking into account financial constraints and accounting conventions.
	3.1 Identify criteria by which proposals can be judged.
	3.2 Critically analyse the viability of a proposal for expenditure.

3. Be able to evaluate financial proposals for expenditure provided by others.	3.3 Identify the strengths and weaknesses of a proposal and give feedback on the financial proposal.
	3.4 Analyse the viability of a proposal for expenditure.

Indicative Content

- Context: Financial Accounting and Management Accounting
- Basic accounting concepts, e.g. profit, cash, matching
- Difference between capital & revenue, sources of financial & cost data
- Financial Analysis
- Budgeting and cash flows
- Costing methods and overhead allocations
- Return on Investment calculations
- The role of depreciation
- Cost / profit centres and allocating costs
- Analysis of financial data, cost benefit analysis
- Lean Methods and Lean accounting
- The difference between data and information
- Sources of data and information

Learners will further be introduced to, and encouraged to discuss, some of the management models, concepts and ideas that could be used to help them set departmental, project, team, and their own objectives.

Unit 705: Strategic Direction

Unit code: D/506/9068

RQF level: 7

Aim

The unit will explore the strategic aims and objectives of an organisation and their significance in setting directions and identifying success and progress for the organisation. The unit will also explore where different strategic options may lead the organisation to change its direction.

Learning Outcomes and Assessment Criteria

Learning Outcomes To achieve this unit a learner must:	Assessment Criteria Assessment of these outcomes demonstrates the learner can:
1. Be able to review and determine the organisation's strategic aims and objectives.	1.1 Critically analyse the existing strategic aims and objectives of the organisation.
	1.2 Undertake a critical evaluation of the components of current organisational strategy.
	1.3 Critically analyse the factors affecting the strategic aims of organisational strategy over the short and medium term.
2. Be able to evaluate progress towards achieving organisational strategic aims and objectives.	2.1 Apply a range of diagnostic and analytical tools to audit and assess progress towards existing strategic aims and objectives.
	2.2 Take responsibility for and critically assess the expectations of all stakeholders and their influence upon future organisational strategy.
	2.3 Critically analyse, interpret and produce an evaluation of the existing organisational strategic position and progress towards achieving the existing strategy.
3. Be able to determine and evaluate strategic options to support a new strategic position.	3.1 Critically evaluate and develop a range of alternative strategic options to meet organisational strategic aims, direction and objectives in the short and medium term.
	3.2 Determine and justify the existing strategic option that can meet the revised strategic position.

Indicative Content

In this unit learners will be introduced to some of the concepts, ideas and models that underpin an organisation setting or taking a strategic direction. The models and concepts to be discussed include:

- Evaluate each component part of the chosen strategic plan
- Analyse the factors affecting the strategic plan of your choice
- Internal and external change drivers
- Structured evaluation of the organisation's strategic position
- Strategic options to meet strategic aims and objectives
- Justifying strategic options
- Evaluating the expectations of all stakeholders
- Medelow – Johnson, Whittington and Scholes
- POSIWID and organisational purpose.

Unit 706: Strategic Planning

Unit code: Y/506/9070

RQF level: 7

Aim

This unit is about the value of the strategic planning process in formulating appropriate strategies and designing a plan that will be supported by stakeholders and other organisational leaders. The critical review of the plan and its success is also addressed in the unit.

Learning Outcomes and Assessment Criteria

Learning Outcomes: To achieve this unit a learner must:	Assessment Criteria: Assessment of these outcomes demonstrates the learner can:
1. Be able to conceive and analyse strategic options.	1.1 Critically analyse and identify the organisation's strategic aims and objectives including the approach adopted to strategic planning.
	1.2 Determine alternative strategic options available and the implications for the organisation.
	1.3 Critically evaluate the impact of stakeholder expectations on a strategic plan and the planning horizon.
2. Be able to formulate a strategic plan.	2.1 Critically evaluate the strategic options available to the organisation over the existing planning horizon and factoring in wider context market and competitor impacts.
	2.2 Assess and determine the priorities and feasibility of alternative options over the existing planning horizon.
	2.3 Carry out a risk assessment of the preferred strategy and alternatives.
	2.4 Identify, justify and articulate the selected strategies within the plan and address any potential problems.
	2.5 Produce a strategic plan and its components to achieve the selected strategic direction.

3. Be able to implement, evaluate, monitor and review the strategic plan.	3.1 Critically review the organisational and market factors to be considered in the implementation of the strategic plan.
	3.2 Determine and apply a range of tools and concepts to monitor and review the strategic plan.
	3.3 Determine the impact of the strategic plan on the organisation's direction and achievement of the organisation's objectives.

Indicative Content

In this unit learners will be introduced to the concepts, ideas and models that underpin an organisation setting or taking a strategic direction. The models and concepts briefly discussed include:

- Organisational aims and objectives
- Alternative Strategic Options
- Strategic Tools and Techniques
- Other Tools and Techniques
- Stakeholder expectations
- Strategic options
- Risk Assessment
- Components of a Strategic plan
- How to evaluate, monitor and review a strategic plan.

Unit 707: Creative and Innovative Management

Unit code: H/618/0795

RQF level: 7

Aim

This unit provides the learner with the understanding to recognise the value to organisations of creative and innovative management ideas and the skills to implement this understanding.

Learning Outcomes and Assessment Criteria

Learning Outcomes: To achieve this unit a learner must:	Assessment Criteria: Assessment of these outcomes demonstrates the learner can:
1 Understand the importance of creative and innovative management in organisations.	1.1 Evaluate current creative and innovative management processes in an organisation.
	1.2 Explain how to lead others to positively embrace innovation and change.
2 Be able to support creative and innovative management processes for an organisation.	2.1 Assess the influence of vision and mission on generation of creative and innovative management processes in an organisation.
	2.2 Use analytical tools to identify potential creative and innovative management ideas.
	2.3 Assess risks and benefits of creative and innovative management ideas.
	2.4 Use change models to support the implementation of creative and innovative management ideas.
3 Be able to influence others to effect change in an organisation.	3.1 Produce an appropriate rationale to persuade stakeholders of an organisation of the benefits of a creative and innovative management idea.
	3.2 Communicate a creative and innovative management idea to stakeholders of an organisation.
	3.3 Establish key goals and priorities for implementation of a creative and innovative management idea using feedback from stakeholders.
4 Be able to plan to overcome barriers to implementation of creative and innovative management ideas in an organisation.	4.1 Assess the barriers to the implementation of a creative and innovative management idea in an organisation.
	4.2 Plan a strategy to overcome identified barriers to the implementation of a creative and innovative management idea in an organisation.

4.3 Explain how a strategy plan for overcoming barriers will ensure innovative change is achieved.
4.4 Communicate a strategy plan for overcoming barriers to relevant stakeholders in an organisation.

Indicative Content

- Organisational processes: processes for the evaluation, selection and development of ideas; ideas – value chain, inside/outside, cross-pollination, selection, development, diffusion; role of incubation.
- Leading the case for innovation: leadership styles and behaviours – strengths, adopting appropriate style for different circumstances; theory and practice of influencing and motivating others.
- Relationship between transformational and transactional change; decision- making processes and style. Perceptions and motivational influences and how to influence them.
- Different methods of communication – strengths and weaknesses in different circumstances
- Vision and mission: influence of vision and mission; indicators of organisational performance; influence of an organisational strategic plan and business plan on innovation.
- Methods; concept that policies and procedures are supported by a culture that reinforces consistently what the organisation is about.
- Tools for creative and innovative solutions: theory and application of lateral thinking, visioning, and problem-solving techniques; theory and use of analytical tools – SWOT (strengths, weaknesses, opportunities, threats), PESTLE (political, economic, social, technological, legal, environmental) analysis; cost-benefit analysis; decision-making processes and styles.
- Risks: risk analysis, risk management techniques.
Benefits and limitations of innovation: benefits – first to market, premium prices, large market share, increased shareholder return, increased employee motivation and morale, improved systems and processes.
- Limitations – risk, investment needed, continual change; expertise in organisation, technological know-how; strategy – strengths and weaknesses.

Unit 708: Managing Corporate Responsibility in the Wider Business Environment

Unit code: K/618/0796

RQF level: 7

Aim

This unit provides the learner with an understanding of the effect of legislation and global integration on decisions, policies, processes and activities undertaken by organisations.

Learning Outcomes and Assessment Criteria

Learning Outcomes: To achieve this unit a learner must: be able to:	Assessment Criteria: Assessment of these outcomes demonstrates the learner can:
1 Understand the wider implications and effects of global integration on organisations.	1.1 Explain the effects of globalisation on national economies.
	1.2 Discuss the influence of international institutions on organisations.
	1.3 Explain the role and responsibility of European Union membership on the workplace.
2 Understand the importance of responsible corporate governance in organisations.	2.1 Explain the importance of responsible corporate governance in organisations.
	2.2 Analyse the regulatory requirements that shape corporate governance.
	2.3 Evaluate the impact of regulatory requirements on corporate stakeholders' interests in an organisation.
3 Understand the effects of environmental legislation, directives and guidance on organisations.	3.1 Discuss the economics of adopting a policy of environmental awareness in organisations.
	3.2 Explain the actions that need to be taken by organisations to maintain the environment.
	3.3 Describe the measures that exist to improve workplace health and safety practice.
4 Understand the socio-cultural, ethical and moral issues that affect organisations in the current economic environment.	4.1 Analyse the responsibilities of organisations to improving workforce welfare.
	4.2 Compare approaches to the management of diversity in organisations.
	4.3 Compare organisational approaches to ensuring positive policies of workforce diversity.

Indicative Content

- Global integration: international business environment – PESTLE (political, economic, social, technical, legal, environmental) analysis; market size; economies of scale; multinational corporations; transnational corporations.
- International institutions – World Trade Organization (WTO), World Bank, International Monetary Fund (IMF), Organisation for Economic Co-operation and Development (OECD), The Group of Twenty (G-20); global financial stability; capital investment; emerging economies.
- European Union (EU): role, responsibility, EU legislation; EU directives; EU membership; EU business regulations and their incorporation into national law; EU policies e.g. agriculture (CAP), business, competition, growth, employment, education, economics and finance, environment, science and technology, regional, welfare.
- Corporate governance: purposes (direction, oversight, accountability); board responsibilities; transparency; disclosure; objectivity; integrity; ethical behaviour; organisational culture; stakeholders' interests.
- Regulatory requirements: Cadbury report; Ruttman guidance; Greenbury report; Hampel report; Turnbull report; Higgs report; Smith report; Companies Acts (2004, 2006); the 8th Company Law Directive of the European Union (2006), Sarbanes Oxley Act (2002, US).
- Impact on domestic business; UK Corporate Governance Code; stock exchange listing requirements; incorporation of legal and regulatory requirements into organisational policies, practice and procedures
- Environmental legislation: EU legislation; UK legislation; environmental protection (air, environmental permitting, land, waste, water, chemicals); noise and nuisance; climate change; energy conservation etc
- Social, cultural, ethical and moral issues: equal opportunities, diversity; disability; discrimination; racism; harassment; bullying; whistleblowing; privacy; confidentiality.
- Ethical standards in business activities (finance, human resources, marketing, dealing with stakeholders); affirmative action; codes of practice; organisational policies; staff training.

Unit 709: Contemporary Human Resource Management

Unit code: Y/615/3304

RQF level: 7

Aim

The aim of this unit is to provide learners with the ability to understand and analyse the impact of internal and external environmental forces on organisational strategy and management of people. Also, to enable the learner to analyse a range of organisational contexts and how they develop ways to respond such environmental forces and the role of HR professionals in contributing to it.

Learning Outcomes and Assessment Criteria

Learning Outcomes: To achieve this unit a learner must:	Assessment Criteria: Assessment of these outcomes demonstrates the learner can:
1: Understand the environment of modern organisations and changing nature of contemporary HRM.	1.1: Analyse the key internal and external environmental forces impacting upon organisations.
	1.2: Describe the changing nature of HRM in response to environmental forces.
2: Understand the impact of changes to the structure and nature of industry, employment law and working patterns on HRM.	2.1 Explain the impact of globalisation and international forces on organisational HR strategies and practices.
	2.2: Explain the impact of demographical, social & technological trends on HR strategies and practices.
	2.3: Explain the impact of government policy and legal regulation on HR strategies and practices.
3: Understand the process of strategic management and the role of HR professionals in contributing to it.	3.1: Explain strategic contexts and terminology.
	3.2: Carry out stakeholder analysis and environmental audit.
	3.3: Identify the role of HR professionals in strategic planning.
4: Understand the diverse application of HR practices in a range of organisational contexts.	4.1: Identify a range of organisational contexts.
	4.2: Evaluate the application of a HR function in an organisational context in achieving set goals and objectives.

Delivery and Assessment

Tuition and guidance should feature flexible approaches to delivering the unit. Formal tuition sessions, whether face to face or online, will identify some of the required, theoretical subject matter. This will help learners to work individually, or as part of a group, researching and gathering information about the subject.

Personal and group research, case studies, simulations, exercises, and discussion are typical and engaging ways of learning about the subject. Learners will likely use tutor- and self- directed study and reflect on their experience and expertise.

Up-to-date information and materials are available from many sources such as businesses, the Worldwide web, television and radio broadcasts, broadsheet newspapers and advisory services.

Outline Learning Plan

The following outlined learning plan can be used as a guidance document in conjunction with the unit. This is an exemplar in which the unit can be delivered.

Topic and Suggested Assignments/Activities/Assessment

- Introduction to the unit and the programme of assignments
- Presentation on the nature of modern organisations and changing nature of contemporary HRM
- Presentation on the impact of changes to the structure and nature of industry, employment law and working patterns on HRM
- Presentation on process of strategic management and the role of HR professionals in contributing to it
- Presentation of stakeholder analysis and environmental audit
- Presentation on the diverse application of HR practices in a range of organizational contexts
- Presentation on the diverse application of HR practices in a range of organizational contexts
- Review of unit and programme of assignments

Suggested Resources

The recommended sources listed below should be familiar to each tutor and assessor who is delivering this unit as part of the qualification. Learners should be made aware of these sources before delivery of this unit and be fully conversant with these sources upon completion of this unit.

Textbooks

- Armstrong's Handbook of Human Resource Management Practice, 11th Edition
- Strategy and Human Resource Management, Peter Boxall and John Purcell, 3rd Edition

Journals

- The International Journal of Human Resource Management
- Human Resource Management Journal
- Human Resource Management International Digest

Unit 710: Resourcing, Talent Management and Development

Unit code: K/615/3307

RQF level: 7

Aim

The purpose of this unit is to develop competence in understanding and analysing employment markets and demographic trends to create and implement effective, ethical and appropriate resourcing, retention, talent management and development strategies.

Also, the potential and limitations of the contribution of learning and talent development policies and strategies to formulating and achieving objectives at national, organisational, group and individual level will be discussed. Learners will assess the role of HRM professionals in designing, implementing, and evaluating strategic planning relevant to employee resourcing, talent management and development.

Learning Outcomes and Assessment Criteria

Learning Outcomes: To achieve this unit a learner must:	Assessment Criteria: Assessment of these outcomes demonstrates the learner can:
1: Understand the theoretical and conceptual basis for employee resourcing and major contemporary developments in employee resourcing and talent management.	1.1: Explain the contextual and environmental themes and trends relevant to employee resourcing and talent management.
	1.2: Explain the strategic significance of employee resourcing and talent management.
2: Understand the features and characteristics of changing employment markets as a basis for effective resourcing and talent management strategies.	2.1: Explain the ways in which employment markets vary and the implications for organisations.
	2.2: Propose ways in which Long and short-term resourcing and talent planning can be carried out.
	2.3: Explain the Human Resource Planning Process.
3: Understand the full range of professional functions associated with long- and short-term talent and succession planning.	3.1: Explain the professional functions.
4: Understand the theoretical and conceptual basis of learning and talent development and contemporary research evidence.	4.1: Explain the theoretical perspective of learning and talent development.
	4.2: Explain the process and practices of learning and talent development.
5: Be able to design, implement and evaluate resourcing and talent management and development strategies.	5.1: Analyse the environmental context of employee resourcing and talent management and development.
	5.2: Evaluate learning and talent development.

Delivery and Assessment

Tuition and guidance should feature flexible approaches to delivering the unit. Formal tuition sessions, whether face to face or online, will identify some of the required, theoretical subject matter. This will help learners to work individually, or as part of a group, researching and gathering information about the subject.

Personal and group research, case studies, simulations, exercises, and discussion are typical and engaging ways of learning about the subject. Learners will likely use tutor- and self- directed study and reflect on their experience and expertise.

Up-to-date information and materials are available from many sources such as businesses, the worldwide web, television and radio broadcasts, broadsheet newspapers and advisory services.

Outline Learning Plan

The following outlined learning plan can be used as a guidance document in conjunction with the unit. This is an exemplar in which the unit can be delivered.

Topic and Suggested Assignments/Activities/Assessment

- Introduction to the unit and the programme of assignments
- Presenting theoretical and conceptual basis for employee resourcing and major contemporary developments in employee resourcing and talent management
- Practical work, ways in which employment markets vary and the implications for organisations
- Assignment 1. A staged report
- Presentation on talent development.
- Tutorial support and feedback for assignment 1 stages
- Review of unit and programme of assignments

Suggested Resources

Unit 711: Performance Management

Unit code: M/615/3308

RQF level: 7

Aim

The aim of this unit is to enable learners to understand the main elements that influence the performance of employees at all levels within an organisation and the ways in which such elements can be managed in a constructive manner. Further to provide learners with understanding to devise and implement appropriate HR practices and strategies that relate to Performance Management.

Learning Outcomes and Assessment Criteria

Learning Outcomes: To achieve this unit a learner must:	Assessment Criteria: Assessment of these outcomes demonstrates the learner can:
1: Understand the linkages between employee performance, HR practices and organisational performance.	1.1: Identify the linkages between HR practices and organisational performance.
	1.2: Explain the role of HR in contributing to employee performance.
2: Be able to identify the barriers and blockages preventing expected standards of performance being met.	2.1: Identify the expected performance standards of an organisation and barriers and blockages in achieving those.
	2.2: Formulate strategies and tactics to overcome the identified barriers and blockages.
3: Be able to analyse the key HR and employment practices influencing employee performance.	3.1: Identify the key HR and employment practices and their influence on employee performance.
4: Understand the key requirements of various systems central to performance management and their integration.	4.1: Identify various systems central to performance management.
	4.2: Explain various ways to integrate various systems central to performance management.

Delivery and Assessment

Tuition and guidance should feature flexible approaches to delivering the unit. Formal tuition sessions, whether face to face or online, will identify some of the required, theoretical subject matter. This will help learners to work individually, or as part of a group, researching and gathering information about the subject.

Personal and group research, case studies, simulations, exercises, and discussion are typical and engaging ways of learning about the subject. Learners will likely use tutor- and self- directed study and reflect on their experience and expertise.

Up-to-date information and materials are available from many sources such as businesses, the worldwide web, television and radio broadcasts, broadsheet newspapers and advisory services.

Outline Learning Plan

The following outlined learning plan can be used as a guidance document in conjunction with the unit. This is an exemplar in which the unit can be delivered.

Topic and Suggested Assignments/Activities/Assessment

- Introduction to the unit and the programme of assignments
- Presentation on the linkages between employee performance, HR practices and organizational performance
- Presentation on the role of HR in contributing to employee performance
- Tutorial support and feedback for assignment 1 stages 1 and 2
- Presentation on the barriers and blockages preventing expected standards of performance being met
- Presentation on the key HR and employment practices influencing employee performance
- Presentation on the key requirements of various systems central to performance management
- Tutorial support and feedback for assignment 1 stages 3, and 4
- Review of unit and programme of assignments

Suggested Resources

The recommended sources listed below should be familiar to each tutor and assessor who is delivering this unit as part of the qualification. Learners should be made aware of these sources before delivery of this unit and be fully conversant with these sources upon completion of this unit.

Unit 712: Business Finance

Unit code: R/618/8634

RQF level: 7

Aim

This unit aims to develop students' knowledge and understanding of management accounting techniques for small businesses and introduce students to the use of management accounting information in the effective management (planning, organising, actuating, and controlling) of small businesses

Learning Outcomes and Assessment Criteria

Learning Outcomes: To achieve this unit a learner must:	Assessment Criteria: Assessment of these outcomes demonstrates the learner can:
1. Explain the management of working capital in small business.	1.1. Explain and analyse the process Accounting and finance for small business.
	1.2 Discuss costs and techniques for costing in small business.
2. Explain the framework for financial decision making and interpretation of financial statements for decision making.	2.1 Analyze the costing and the business structures and explain their framework.
	2.2 Explain the benefits of budget preparation in the decision-making process
3. Be able to interpret the various investment appraisal methods.	3.1 Synthesize a Report on investment appraisal techniques in your own context.
4. Produce a range of financial budgets for small businesses and discuss the benefits and relevance of budget preparation in decision making processes.	4.1 Analyse and report financial information that enables decision making at the management level.

Delivery and Assessment

The learning and teaching strategy will consist of formal lectures to present theory, principles and practices which will form the foundation of the learning outcomes. Students will be encouraged to interact and contribute as a means of developing critical skills. Tutorials will be activity based using real world case studies and live examples to apply the theory into practice and develop their decision making and evaluating skills.

In addition, students will be encouraged to undertake self-directed study and further research on selected topics to acquire additional perspectives which will provide them with a deeper understanding of the topics covered

Outline Learning Plan

The following outlined learning plan can be used as a guidance document in conjunction with the unit. This is an exemplar in which the unit can be delivered:

1. Introduction to small business structures
2. Introduction to management/cost accounting
3. Cost accumulation for inventory valuation and profit measurement
4. Information for decision-making
5. Information for planning, control, and performance measurement
6. Strategic management and challenges for the future
7. The application of quantitative methods to management accounting

Topic and Suggested Assignments/Activities/Assessment

- Introduction to the unit and the programme of assignments
- Tutorial support and feedback for assignment 1 stages 1 and 2
- Tutorial support and feedback for assignment 1 stages 3, and 4
- Discuss the role of costing in different business scenarios
- Discuss presentation of costs for ease of understanding by the management team
- Review of unit and programme of assignments

Suggested Resources

The recommended sources listed below should be familiar to each tutor and assessor who is delivering this unit as part of the qualification. Learners should be made aware of these sources before delivery of this unit and be fully conversant with these sources upon completion of this unit.

Unit 713: International Financial Management

Unit code: Y/618/8635

RQF level: 7

Aim

This module aims to develop students' understanding and knowledge on investments that are conducted across international borders. Furthermore, it explores issues that go beyond domestic economies, including dealing with foreign currency and managing international economic and cultural differences. Hence, this module equips students with the tools to navigate the complex world of international finance.

Learning Outcomes and Assessment Criteria

Learning Outcomes: To achieve this unit a learner must:	Assessment Criteria: Assessment of these outcomes demonstrates the learner can:
1. Be able to explain international financial environment with emphasis on financial markets and exchange rate determination.	<ul style="list-style-type: none">1.1 Explain the conditions that will result in Triangular Arbitrage and covered interest arbitrage1.2 Analyse International financial Environment on basis of financial markets1.3 Explain the common methods used to conduct International Business1.4 Provide a model for valuing the MNC
2. Be able to analyse exchange rate behaviors and learn relationship between Inflation, Interest rates and exchange rates.	<ul style="list-style-type: none">2.1 Explain the measurement of exchange rate movements2.2 Explain equilibrium exchange rate and examine the factors that affect it2.3 Explain the purchasing power parity (PPP) theory in line for exchange rate changes2.4 Discuss influence of inflation and interest on exchange rates and how financial institutions capitalize on anticipated exchange rate movements
3. Be able to explain the forecast of future exchange rate risks and to manage the same by hedging the exposure.	<ul style="list-style-type: none">3.1 Explain why corporations forecast future exchange rate and currency risks3.2 Explain how forecast performance can be evaluated3.3 Discuss forward contracts, currency call and put options contracts3.4 Explain how to account for uncertainty surrounding forecasts

<p>4. Be able to understanding of how MNCs decide on their short-term cash flow needs to finance international trade.</p>	<p>4.1 Explain common trade finance methods 4.2 Describe methods of payment for international trade 4.3 Identify sources of short term financing methods 4.4 Explain how MNC's determine whether to use foreign financing</p>
<p>5. Be able to explain how MNCs manage long term assets and liabilities; and conduct capital budgeting analysis and capital structure decision.</p>	<p>5.1 Compare the capital budgeting analysis of an MNCs subsidiary vs its parent 5.2 Demonstrate how multinational capital budgeting can be applied to determine whether an international project should be implemented. 5.3 Explain how the risk of international projects can be assessed</p>

Delivery and Assessment

The learning and teaching strategy will consist of formal lectures to present theory, principles and practices which will form the foundation of the learning outcomes. Students will be encouraged to interact and contribute as a means of developing critical skills. Tutorials will be activity based using real world case studies and live examples to apply the theory into practice and develop their decision making and evaluating skills. In

In addition, students will be encouraged to undertake self-directed study and further research on selected topics to acquire additional perspectives which will provide them with a deeper understanding of the topics covered.

Outline Learning Plan

The following outlined learning plan can be used as a guidance document in conjunction with the unit. This is an exemplar in which the unit can be delivered.

1. The International Financial Environment (Introduction)
2. The International Financial Environment (Intermediate)
3. Exchange Rate Behaviour
4. Exchange Rate Risk Management
5. Exchange Rate Risk Management
6. Long Term Asset & Liability Management
7. Short-Term Asset & Liability Management

Topic and Suggested Assignments/Activities/Assessment

- Introduction to the unit and the programme of assignments
- Tutorial support and feedback for assignment 1 stages 1 and 2
- Tutorial support and feedback for assignment 1 stages 3, and 4
- Discuss the role of costing in different business scenarios
- Discuss presentation of costs for ease of understanding by the management team
- Review of unit and programme of assignments

Suggested Resources

The recommended sources listed below should be familiar to each tutor and assessor who is delivering this unit as part of the qualification. Learners should be made aware of these sources before delivery of this unit and be fully conversant with these sources upon completion of this unit.

Unit 714: Customer Growth Marketing

Unit code: D/618/8636

RQF level: 7

Aim

The overarching aim of this module is to critically examine the tools and techniques used to create successful customer growth in all contexts. In doing so students will develop a critical understanding of the factors which influence consumer behaviour and evaluate the literature and relevant theories which explain consumer motivation and customer relationships. Students will also be able to analyse an organisation's marketing strategy and demonstrate the application of key elements concepts and tools within the business environment.

Learning Outcomes and Assessment Criteria

Learning Outcomes: To achieve this unit a learner must:	Assessment Criteria: Assessment of these outcomes demonstrates the learner can:
1. Critically evaluate and design successful communication strategies to meet and grow marketing outcomes.	1.1 Critically evaluate different communication strategy options. 1.2 Analyse best communication strategy options to implement to meet objectives
2. Identify and redefine segmentation and targeting techniques to reach your customer base.	2.1 Analyse and redefine targeting techniques 2.2 Analyse existing customer segmentation and suggest redefining the same to reach specific customer niche
3. Be able to Develop and Explain creative marketing plans targeting the consumer behavior.	3.1 Evaluate consumer behavior and its relation to marketing plan 3.2 Design and develop creative marketing plans to reach target customer
4. Be able to conceptualize competitive advantage by creating long term growth using relationship marketing.	4.1 Analyse possible marketing methods to reach customer base and create loyalty 4.2 Conceptualise marketing options to create repeat customers using relationship marketing

Delivery and Assessment

The learning and teaching strategy will consist of formal lectures to present theory, principles and practices which will form the foundation of the learning outcomes. Students will be encouraged to interact and contribute as a means of developing critical skills.

Tutorials will be activity based using real world case studies and live examples to apply the theory into practice and develop their decision making and evaluating skills. In addition, students will be encouraged to undertake self-directed study and further research on selected topics to acquire additional perspectives which will provide them with a deeper understanding of the topics covered.

Outline Learning Plan

The following outlined learning plan can be used as a guidance document in conjunction with the unit. This is an exemplar in which the unit can be delivered.

1. Marketing strategy: Macro and microenvironment
2. Segmentation and targeting: Identifying your customers
3. Consumer motivation: Understanding buyer behaviour
4. Differentiation and creating value for target customers
5. Relationship marketing

Topic and Suggested Assignments/Activities/Assessment

- Introduction to the unit and the programme of assignments
- Tutorial support and feedback for assignment 1 stages 1 and 2
- Tutorial support and feedback for assignment 1 stages 3, and 4

Suggested Resources

Unit 715: Advanced Strategic Marketing

Unit code: H/618/8637

RQF level: 7

Aim

Marketing Strategy builds on the existing knowledge that students and practitioners already hold about the principles of marketing. It should help candidates propose strategic response to emerging market themes and allow them to consider the impact on marketing and its interaction with other parts of the organisation.

Its aim is to provide a clear concise guide to the tools and frameworks for marketing decisions that seek answers to the strategic questions, where are we now? Where do we want to be? How will we get there? And did we get there?

Learning Outcomes and Assessment Criteria

Learning Outcomes: To achieve this unit a learner must:	Assessment Criteria: Assessment of these outcomes demonstrates the learner can:
1. Be able to evaluate various possible orientations of marketing strategy.	1.1 Discuss the role of Marketing within strategy and Emerging themes 1.2 Analyse the marketing strategy for firms of same and different industries. 1.3 Evaluate more effective marketing strategies to reach market segmentation.
2. Be able to Identify and analyse marketing issues within various environments, utilising a wide range of marketing techniques, concepts and models.	2.1 Analyse and evaluate marketing strategy options for products across border 2.2 Perform Strategic analysis by conducting micro and macro analysis; and financial and portfolio analysis
3. Be able to critically evaluate various options available within given constraints and apply competitive positioning strategies, justifying any strategic decisions taken to determine.	3.1 Critique your available marketing strategy options to create a competitive strategy. 3.2 Evaluate options to reach competitive advantage by using various marketing mix.
4. Be able to analyze and develop creative, customer focused and innovative strategies incorporating relevant marketing mix decisions, to realise sustainable competitive advantage.	4.1 Analyse and develop innovative marketing strategies using various marketing mix. 4.2 Discuss the use the of forecasting and strategic intent to reach competitive advantage

<p>5. Be able to identify competitive advantage as an on-going process that needs to be measured, managed, and controlled.</p>	<p>5.1 Analyse and conceptualize a measurement process of competitive advantage 5.2 Discuss implementation and control by applying marketing metrics to monitor competitive advantage 5.3 Develop metrics to measure customer lifetime value</p>
--	--

Delivery and Assessment

The learning and teaching strategy will consist of formal lectures to present theory, principles and practices which will form the foundation of the learning outcomes. Students will be encouraged to interact and contribute as a means of developing critical skills. Tutorials will be activity based using real world case studies and live examples to apply the theory into practice and develop their decision making and evaluating skills.

In addition, students will be encouraged to undertake self-directed study and further research on selected topics to acquire additional perspectives which will provide them with a deeper understanding of the topics covered.

Outline Learning Plan

The following outlined learning plan can be used as a guidance document in conjunction with the unit. This is an exemplar in which the unit can be delivered.

1. Strategic perspectives, what is strategic management and the role of marketing within strategy and emerging themes
2. Strategic analysis, external and internal analysis including Macro and micro analysis Auditing tools including financial and portfolio analysis
3. Forecasting and strategic intent including Mission, gap analysis, objective setting and the balanced scorecard Strategy formulation including
4. Competitive advantage, strategic direction, industry positioning and product market strategies Strategic Choice including Strategic methods, branding, pricing, and distribution to marketing communication strategies
5. Strategic implementation and control including Relationship and Internal marketing, applying marketing metrics, monitoring performance to customer lifetime value

Topic and Suggested Assignments/Activities/Assessment

- Introduction to the unit and the programme of assignments
- Tutorial support and feedback for assignment 1 stages 1 and 2
- Tutorial support and feedback for assignment 1 stages 3, and 4

Unit 716: Planning, Controlling and Leading a Project

Unit code: K/618/8638

RQF level: 7

Unit Aim

This unit aims to introduce learners to the realities of developing and managing a project. It will also introduce learners to the challenges of project management practice in the global business arena. It aims to promote thinking critically about project management as complex, process-based cultural systems and as constantly developing with the high performing team efforts.

As increasing number of firms have project development and project management activities, understanding the efficient project management is of vital importance. Learners will learn about the roles and responsibilities of a project team members. Various level of management skills will be studied with special focus on success factors, monitoring and control.

Learning Outcomes, Assessment Criteria

Learning Outcomes: To achieve this unit a learner must:	Assessment Criteria: Assessment of these outcomes demonstrates the learner can:
1. Understand the concepts and principles of project management in business.	1.1 Examine the role of project management in achieving business objectives. 1.2 Explain the application of key concepts and principles of project management in different business environments. 1.3 Appraise business objectives in order to determine potential projects.
2. Be able to design systems and plans for initiating and managing and leading projects.	2.1 Examine key leadership and management theories related to project management. 2.2 Develop role and responsibilities of the project manager for a project. 2.3 Develop a project organogram identifying roles of key project team members.

	<p>2.4 Determine sources of finance available for a project.</p> <p>2.5 Assess the feasibility of a proposed project.</p> <p>2.6 Prepare a detailed project plan with high level estimates of time, resources and costs that meet agreed milestones.</p>
3. Be able to evaluate the effectiveness of communication within a project management team.	<p>3.1 Explain the key contents of a project communication plan.</p> <p>3.2 Evaluate the benefits of a project communication plan to stakeholders of a project.</p> <p>3.3 Analyse the factors that can affect communication during a project's life span.</p>
4. Be able to design monitoring and controlling mechanisms for a project.	<p>4.1 Evaluate risk factors that may impede completion of a project.</p> <p>4.2 Design systems and measures to monitor and appraise the status and progress of a project.</p> <p>4.3 Develop contingency plans to help mitigate potential delays in the progress of a project.</p>
5. Understand how to close and review the completion of a project.	<p>5.1 Explain the closing stages of a project.</p> <p>5.2 Assess the importance of project evaluation.</p>

Indicative Content

Project management: principles; role of the project manager e.g., management of change, understanding of project management system elements and their integration, management of multiple projects; project environment and the impact of external influences on projects; identification of the major project phases (initiate, plan, execute, monitor/control,

evaluate/close) and why they are required, understanding of the work in each phase; the nature of work in the lifecycles of projects in various industries.

- The Product Breakdown Structure (PBS)
- Work Breakdown Structure (WBS),
- Project Execution Strategy (PES) and the

Organisation Breakdown Structure (OBS) e.g., preparation of organisational charts, task responsibility matrix, statement of work (SOW) for project tasks.

- Relationship between schedules, OBS and WBS, network techniques, resourcing techniques, computer-based scheduling and resourcing packages, project progress measurement and reporting techniques, staff-Hours earned value and progress 'S' curves, critical path analysis and reporting, milestone trending. C
- Cost control: cost breakdown structure e.g., types of project estimate, resources needed, estimating techniques, estimating accuracy, contingency, and estimation, bid estimates, whole-life cost estimates, sources of information, cost information sensitivity, computer-based estimating.
- The why, what, how, when, where and by whom of Project Management e.g., contract terms, document distribution schedules, procurement, establishing the baseline for the project.
- Critical path method, PERT/CPA modelling, quality control and analysis,
- Total Quality Management (TQM), quality chain, milestone charting
- Team structures: Hierarchical, virtual, functional team, matrix management.
- Roles and responsibilities of Project Manager and sponsor,
- Long term and short-term sources of funding.
- Share Capital or Equity Shares, Preference

Analysis of results and planned procedures; use of appropriate evaluation techniques; application of project evaluation and review techniques (PERT); opportunities for further studies and developments, use of appropriate techniques to justify project progress and outcomes in terms of the original agreed project specification

Unit 717: Procurement Risk and Contract Management

Unit code: M/618/8639

RQF level: 7

Unit Aim

The aim of the unit is to enable the student to understand the core concepts of procurement along with the importance of identifying and managing risks related to procurement and contract management. The learners will also develop a critical understanding of various legislative frameworks important for procurement and consider frameworks for risk assessment in the procurement context.

Learning Outcomes, Assessment Criteria

Learning Outcomes: To achieve this unit a learner must:	Assessment Criteria: Assessment of these outcomes demonstrates the learner can:
1. Understand the core concepts of procurement and contract management.	1.1 Define procurement and contract management. 1.2 Examine the principles of procurement and contract management as applied to a large multinational organisation. 1.3 Evaluate the importance of sustainable procurement.
2. Be able to critically evaluate procurement operating environment and legislation.	2.1 Assess the impact of legislative frameworks on procurement in the impact public and private sector. 2.2 Critically assess the role of European Union in procurement. 2.3 Evaluate the importance of establishing 'Contract Procedure Rules' and applying financial regulations.
3. Understand the management of procurement operations.	3.1 Discuss the key principles and application of category management. 3.2 Critically assess the impact of technology on procurement operations.

	<p>3.3 Examine the use of electronic promotion of contract opportunities and electronic tendering.</p> <p>3.4 Explain the various risks associated with e- tendering.</p>
4. Understand the risk management process in procurement and contract management.	<p>4.1 Evaluate the risk management factors that impact on procurement and contract management.</p> <p>4.2 Evaluate frameworks of risk assessment in relation to procurement.</p>

Indicative Content

- Procurement & sourcing methods, inventory management, distribution facility, structural changes, definition by CIPS.
- Procurement cycle support wider social, economic, and environmental objectives.
- Contract Management: Standardised Processes and Procedures, Spend, Visibility, Improved Compliance, Solid Foundation for Spend and Performance Analysis, Rebate Management, Reduced Maverick Spending, Evergreen
- Example Framework:
 - o The Public Service (Social Value) Act 2012
 - o Community Right to Challenge (Localism) Act 2012
 - o FreedomofInformationAct2000
 - o GDPR2019, Part 1
- Relevant Frameworks in own country
- EU Consolidated Public Procurement Directive,
- Category Management: Strategic, Bottleneck, Routine, Leverage
- Electronic procurement: Public Services Network (PSN), Procure to Pay (P2P), Enterprise Resource, Planning system (ERP).
- E-Sourcing / e-Tendering: Electronic reverse auctions, electronic marketplace, Purchase cards, Request for information, Request for proposal, Request for quotation, RFX (the previous three together), and eRFX (software for managing RFX projects), System for Acquisition Management (SAM).
- Risks: Micromanagement, Time-Consuming Approval Chains, Supplier Onboarding Problems, Hacking, Data Loss
- Risk and Issue Register, Risk Probability Framework, Scoring Impact, Scoring Probability, Sources of Risk, Risk Control

- Procurement Cycle Risks, Measuring risk against expenditure type risk and cost, Procurement Risk Register, Prioritisation of Risk Matrix

Suggested Resources

Unit 718: Advanced Project and Logistics Management

Unit code: H/618/8640

RQF level: 7

Unit Aim

The aim of this unit is to allow the learner to understand concepts of portfolio management and the associated features. The value of having a Project Management Office will also be examined and the stages of establishing an effective project management office will be considered. Learners will also examine the supply chain ecosystem and review IT frameworks appropriate for logistics and supply chain complexities.

Learning Outcomes, Assessment Criteria

Learning Outcomes: To achieve this unit a learner must:	Assessment Criteria: Assessment of these outcomes demonstrates the learner can:
1. Understand the features and aims of project, program, and portfolio management.	1.1 Compare the features and aims of programme management with project management. 1.2 Define the principles of portfolio management. 1.3 Examine the differences between programmes and portfolios. 1.4 Evaluate the relation between portfolios management and organisational strategy. 1.5 Evaluate the efficacy of various portfolio selection tools and techniques.
2. Understand the requirements for implementing a Project Management Office.	2.1 Critically assess the benefits of the Project Management Office. 2.2 Assess the implementation of a levelled Project Management Office structure. 2.3 Critically evaluate the stages involved in planning and implementing the Project management Office.

	2.4 Create a Project Management Office charter for an organisation.
3. Understand the global supply chain ecosystem.	3.1 Define what a global supply chain ecosystem is. 3.2 Explain how to map global supply chains ecosystem. 3.3 Explain the use of the ecosystem framework in supply chain analysis. 3.4 Examine how modern manufacturing and services are intertwined.
4. Understand the role of information technology in logistics and supply chain.	4.1 Critically assess the relationship between logistics and information systems. 4.2 Define Critical Success Factors (CSF) for IT integration in logistics. 4.3 Design a framework to integrate IT into the Total Logistic System.

Indicative Content

- Cross-project and multi-disciplined
- Focal Point for Ownership and Accountability
- Horizontal Collaboration
- Strategic in Nature
- Strategic vs. Tactical
- Scope of Responsibility
- Management of Risk
- Life Cycle Involvement
- Process Orientation
- Skills and Capabilities

- Process vs. Function
- Portfolio Management and Organisational Strategy
- A Portfolio Roadmap
- Enterprise portfolio management
- Single-Criterion Prioritization Model
- Multiple-Criteria Weighted Ranking Model
- Multiple-Criteria Scoring Model
- Benefits of the Project Management Office. (PMO)

- PMO staffing, PMO Charter, Assign the PMO Manager, Integrate Applicable Organisational Policies, Establish Project Manager Qualifications, Establish PMO Processes and Procedures, Create a Change Management Plan
- Supply Chain Ecosystem
- The Ecosystem Elements as Enablers of
- Globalization
- Supply Chain De-Verticalization, Modularization,
- and Outsourcing
- Organisational modularity
- Supply chain trends: Modularity and outsourcing
- De-verticalization of electronics firms, De-
- verticalization of apparel firms
- Role of Institutions
- Economic, regulatory, and trade-related
- innovations, Institutions, and supply chains,
- Resources and Management, Clusters
- Delivery Infrastructure: Logistics,
- Communication, IT, and ITeS
- Logistics Ecosystem Framework

- Information Logistics (IL), information element (IE), Data logistics
- (1) Pre-transaction elements:
 - o Inventory availability

 - o Target delivery dates.
- (2) Transaction elements:
 - o Order status
 - o Order tracing
 - o Back-order status
 - o Shipment shortages of Product substitutions.

- Frameworks: The Project Integrate Framework, Enterprise application integration, ELPIF: E- Logistics Processes Integration Framework Based on Web Services, Resource Integration Framework of Logistics Resource Grid (LRG).
